- Users should be able to comment and react to the blogs.

Quick Facts :

“ Industry:
Government Website. ”

Benefits Delivered :

- “
- Faster performance
 - High-Quality User Experience
 - High availability
- ”

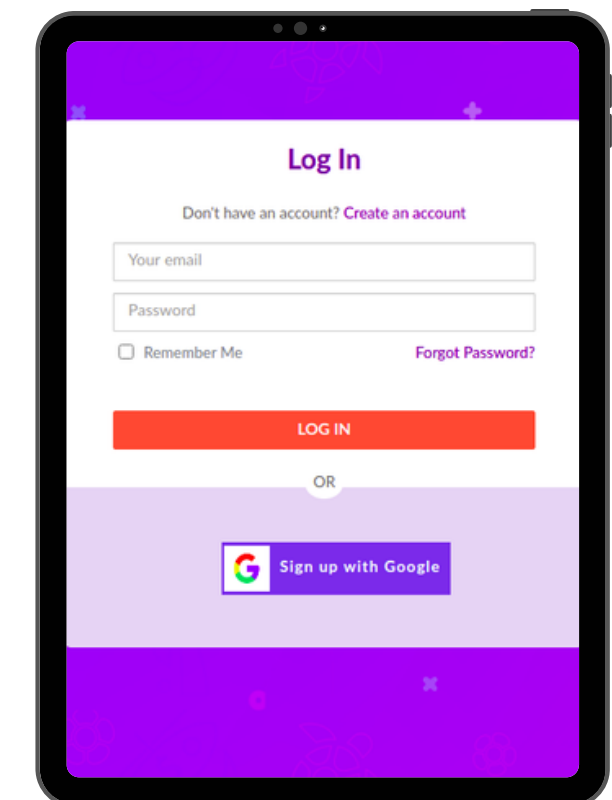

KEY FEATURES :

- ✔ This is a multilingual public portal brought into play by the country's government to help their citizens to manage income and expenses. Portal has articles and features which are designed and developed to target all generations of people. Portal offers the following features.
- ✔ Portal provides the below calculators to their users.
 - Pocket Money Calculator : This widget helps students to calculate their pocket money income and various expenses.
 - Housing Calculator : This widget helps users to calculate the monthly installment, total repayment, and total payable interest by entering some required information.
 - Car Loan Calculator : This widget helps users to calculate the total payable interest, max installment based on entered salary, monthly installment, and many more.

“

Working with Ignek Infotech has been fabulous. They are highly responsive, so any changes or improvements we needed were implemented quickly.

”

- Retirement Calculator : This calculator will seek details like current age, target retirement age, total savings till today, monthly contribution, and expenses after retirement. This widget calculates the total savings required per month and the total savings that will be available at the time of retirement.
- Education Calculator : This calculator will provide the total savings required per month based on the entered details.
- Credit Card Calculator : This widget helps users to check the total interest, length of the repayment, and final settlement amount.
- Emergency Calculator : This calculator is used to calculate the emergency fund.
- ✔ Portal provides video tutorials for children.
- ✔ The Portal provides a Budget planner for the users.
- ✔ The Portal provides various articles for users of all generations.
- ✔ This portal has a school adoption program facility where users can search schools in their state and also can find Financial Service Providers.
- ✔ The Portal sends newsletters to the subscribers.
- ✔ Portal allows users to share blogs on the social media
- ✔ The Portal allows users to react to the blogs.
- ✔ The Portal provides user guides to the users, so new users can use the calculators well.

SOLUTION/ TECHNOLOGY USES:

1

Liferay :

- Implemented various calculators.
